

Example 2: Document Chat System

An interactive chat system that lets you ask questions about your documents with conversation history.

Features

- ■ Load text documents from files or directories
- ■ Smart text chunking with overlap
- ■ Conversational interface with history
- ■ Source attribution for answers
- ■ Multi-turn conversations

Setup

```
cd examples/02-document-chat

# Set API key
export OPENAI_API_KEY="your-key-here"

# Run
python document_chat.py
```

Usage

The system will: 1. Create sample documents about AI and RAG 2. Load and chunk them 3. Start an interactive chat session

Chat Commands

- Type your question and press Enter
- Type `stats` to see system statistics
- Type `quit` to exit

Example Conversation

``` You: What is machine learning?
